Mulholland Incident, Vegetation Fire , Malibu, Los Angeles County (Final)

At 0515 Hours on 02/25/2016 the California State Warning Center (CSWC) advised Cal OES Southern and Fire Duty Officers of a brush fire in Malibu.

- Per Cal OES Southern Duty Officer (SDO) the fire started around 0300 hours near Mulholland Highway and Bardman Street 3 miles Northeast of Pacific Coast Highway (PCH).
- At 0630 hours on 02/25/2016 the Los Angeles County Office of Emergency Management (OEM) advised the SDO that no structures were threatened and voluntary evacuation orders were no longer in effect.
- Per the Cal OES FDO at 1643 hours on 02/25/2016:
 - Fire is 100 percent contained at 10 acres. One inmate was injured during the operation and was transported to a medical facility for treatment. No requests for mutual aid resources. **Final Report**

SITUATION SUMMARY

Weather of Concern

Northern California

- For San Francisco and Monterey counties, powerful forerunner waves will move into the area early this morning. Waves will then build to the 11 to 14 feet range by the evening. Local breakers up to 20 feet will be possible through Saturday morning.
- Two weak storms will pass over Northern California. The first one will arrive tonight into early Saturday morning with rain and the second weaker storm arrives Sunday afternoon with less precipitation.
- Light dusting of snow possible early Saturday morning above 5500 feet with minimal impacts to mountain travel as snow amounts will be around an inch.

Southern California

- Surf will Increase this afternoon, peaking tonight into Saturday. Breakers of 10 to 15 feet will be common across west and northwest facing beaches. Local breakers up to 18 feet will be possible for beaches in San Luis Obispo and Santa Barbara Counties.
- Breakers of 5 to 8 feet will be common across west facing beaches, with local breakers up to 10 feet for Los Angeles County. High surf should diminish late Sunday night.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

Expect an inch or so of rain at the coast and at least a quarter of an inch over inland west side areas this afternoon and evening. We will see breezy winds through the usually windier areas. Snow levels will be high for much of this system.

Eureka Weather:

Light to moderate rain will return to northwest California this afternoon and last through the evening, followed by scattered showers overnight. Dry conditions will return tomorrow and Monday, with additional light rain expected in places Sunday. Chances for more significant rain increase towards the middle and end of next week.

Reno Weather:

Temperatures across northeast California and western Nevada will be well above average today before easing down slightly over the weekend. It will be breezy this afternoon and evening, with a chance for showers mainly north of Interstate 80 tonight and early Saturday. Another weak system is possible Sunday night, with additional fast moving systems for mid to late next week.

Sacramento Weather:

Expect dry weather with above normal temperatures this afternoon. A weak system will bring a chance for light rain, mainly north of interstate 80 this evening into early Saturday, followed by an even weaker system Sunday into Monday morning.

San Francisco Weather:

Slightly cooler temperatures can be expected today as high clouds increase and light onshore flow develops. A weak storm system passing to the north will bring a possibility of light rain to the area this afternoon and evening, primarily to the North Bay area. High surf is expected to impact the coast today into Saturday. Dry weather is expected this weekend with warm temperatures returning next week. Forecast models are trending towards the possibility of rain by the middle of next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Dry weather will continue for the next several days as a ridge of high pressure dominates the pattern. Aside from the possibility of fog in the San Joaquin valley this morning, skies will be mostly clear. High temperatures will continue to be well above normal.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A weak trough will approach the area on Friday, bringing a cooling trend into the weekend. Temperatures will remain above normal. Well above normal temperatures will return early next week as high pressure builds into the great basin and offshore flow redevelops. A weak front will bring cooling late next week, along with a slight chance of rain north of point conception.

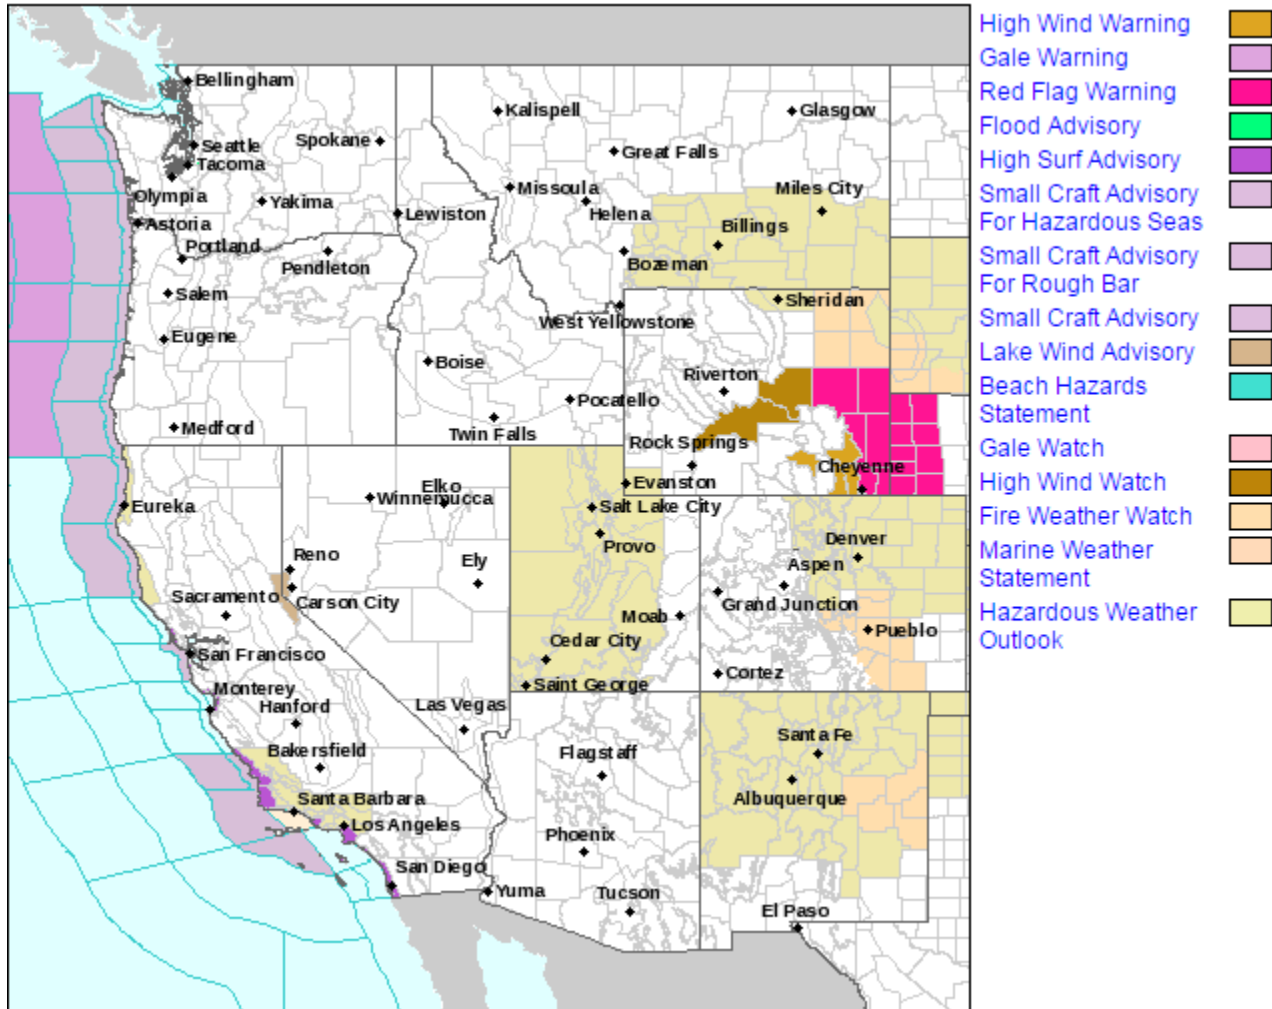

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Through Monday, weak onshore flow and a return of the marine layer with areas of night and morning coastal low clouds and fog will bring cooling to near seasonal high temperatures for coastal areas while inland areas remain around 10 degrees above average. It will be a little warmer towards the coast for next Tuesday with weak offshore flow, then gradually cooler for Wednesday through Friday as high pressure weakens.

Southeast California Weather:

Warm and dry conditions will continue through the weekend across the area. A system moving through the area early next week may bring breezy conditions on Monday and Tuesday. Only a slight and brief cool down is expected before another warming trend begins by midweek.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-LAW-21674, 2/26/2016, 0310 Hours**, Butte County Sheriff's Office on behalf of Paradise Police Department requesting two Type-1 SAR Trailing K9 and flankers to assist in their search for a missing 10-year old girl who was last seen at 1830 Hours, 2/25/2016, near her residence in Paradise. Requested resources to meet for a 0800 briefing, 2/26/2016, at the Paradise Police Head Quarters in Paradise. Cal OES Law Enforcement Branch coordinating the response. **Mission Ongoing.**
- **2016-LAW-21670, 2/25/2016, 1747 Hours**, Calaveras County Sheriff's Office is requesting 20 Type-2 or Type-3 ground searchers to assist in searching for a missing 79 year old male who is diabetic and in early stages of dementia. MP was last seen at 1030 Hours, 2/25/2016, after he became separated from his hiking group in the hills above Arnold, California. The requested resources are to meet for a 0630 briefing, 2/26/2016, at the County Corporation Yard in Arnold. Cal OES Law Enforcement Branch is coordinating the response. **UPDATE: as of 2033 Hours**, Amador and Tuolumne County Sheriff's Office agreed to fill the request. **Mission Ongoing**
- **2016-LAW-21666, 02/25/2016, 1050**, Sacramento County Sheriff's Department(SCSD) requested a mission number be issued for a request by Sacramento Police(SPD) to utilize three HRD K9 teams from El Dorado County Sheriff's Office(EDSO) on 2/26/2016. SCSD and EDSO have an MOU for the teams. SPD will be executing search warrants to locate three deceased persons. Teams will meet SPD at 0900 at their Franklin Blvd Station. No other assistance is requested from Cal OES. **Mission Ongoing**
- **2016-LAW-21584, 1545 Hours, 02/21/2016**: El Dorado County SAR requested five HRD K9 teams to search near South Lake Tahoe for a missing 69 y/o female who has been missing for five days. The MP is not in good health. Her vehicle was located at a remote parking area. Teams are to meet at EDSO in South Lake Tahoe at 0800. Cal OES K9 coordinator is arranging for the K9 teams. **UPDATE: as of 1915 Hours, 02/23/2016**, EDSO is requesting Placer County Nordic SAR team to assist with segmented search and probing. LDO is coordinating. Placer County Nordic SAR, Sgt. Hunt was advised and will attempt to fill the request. Per EDSO a 10 hour search did not produce any results. **MISSION SUSPENDED. UPDATE: as of 1430 Hours, 02/24/2016**: El Dorado County OES requesting 2-3 avalanche dogs on 2/27/2016, 0730 hours, to meet at the South Lake Tahoe Sheriff's station. LDO is coordinating with Cal OES SAR K9 program for the resources. **UPDATE: as of 2/25/2016, 1000 Hours**, Cal OES SAR K9 program will have all three teams requested for this search. **Mission Ongoing**

(PER-304) Social Media for Natural Disaster Response and Recovery

This course focuses on the use of social media in disaster preparedness, response, and recovery. Social media has shown to help people communicate and collaborate about events as the events unfold. Social media can provide rapid and immediate real-time information about events that helps provide greater situational awareness leading to better decision making. Participants are provided with the knowledge and skills to integrate social media into their current communication plans. The course defines social media and its uses and identifies the tools, methods, and models to properly make use of social media in the context of disaster management and provides the information and hands-on experience necessary to help the participants' create social media disaster plans.
